#### WEDNESDAY, AUGUST 11, 1918. NOAH GETS THE BLAME.

The statement issued by the U versity of Pennsylvania the day before yesterday that according to the correct translation of the scriptures it was not Eve but Noah who brought about the Fall has called for the usual sparring of wit that such socalled discoveries usually occasion. And newspaper folk in many parts of the country have got the suffragists to make comment on this clearing of Eve's reputation.

"I always suspected Noah," said one woman yesterday who stands high in the ranks of those who want the vote. "Eve was a lady and is the mother of all the good people in the world. But if you have ever read the ninth chapter of Genesis you will remember that Noah, after the flood and getting off the water, became a husbandman, planted a vineyard and got drunk on his own vintage. Most of the misery in the world comes through drink, and, if I remember right, Noah was the first person mentioned as liking wine parties. Remembering this, I can believe this new-old story of him. I wouldn't wonder if it was some of his cronies that laid the blame on Mother

English society life as it has been will not be known after the war is over. Life will be on a higher plane. There will be less sordidness, greater spirituality in Europe when the war days have passed. Workers will get higher wages-class distinctions will be broken down-in short the world will be a better place-after the war.

That is what we read every day in the papers and we even hear it preached in the pulpits. We like to think that this frightful war will have some good effects. That perhaps folk will

Quite the contrary. The twenty years directly following the war here! were the least progressive in our entire history, hostorians tell us. There was less of spirituality. Whatever the cial conditions were at low ehb and the majority of families lived on a lower level, both materially and spiritually than in the generation preceding the war.

Too bad, but this talk about the good ffects of the European war seem to we only the optimistic hope of those who must find some good in so much evil: just as we ourselves like to imagine that our general health has been improved after a long illness. But doctors will tell you that typhoid doesn't really benefit your system, and history will probably show this war to be an unmitigated evil.

### DANCING SCHOOL.

"HIS is a real Mothers' Club, for the benefit of mothers everywhere who are struggling with questions of discipline, training, education, clothing, for the children. Write to Aur. Chatty of problems which are vexing you, and she will advise and help you to a solution of them. Write to her, too, of your own discoveries, of methods you have found successful in smoothing the rough paths of life for the tender, childish feet, that through the Mothers' Club your experience may be of benefit to other mothers who are still tangled in the web of perplexity you have so happily unraveled.

Co-operation is the secret of success in any business; so why not in the business of motherhood, that highest and holiest calling which always has been and always will be woman's crown of glory, no matter what other avenues of usefulness may be opened to her? "I have read somewhere," said Akiko Yosano, the most talked about women in Japan, "that in America and Europe the economic dependence which I seek for our women has caused a certain loss of charm and feminine attractiveness."

Mrs. Yosano does not agree that the predicted evil would follow greater free-dom for women. But she wants Japanese women to be given a fighting chance. She wants some sort of equality. She scarcely believes that the women other things that were just and must be

"Are we really lacking in the desire to live, as compared to Europeans!" She does not like to believe this to be true, and prefers to think that the lack is a "temporary suspension of desire." The chief reason for this, she believed, is the paucity of nourishment in Japanese food, with the result that the Japanese physique is inferior even to that of the Korean or Chinese.

When women are so unwise as to use so-called hair removers, they actually shocause such preparations stimulate hair growth after each removal.

The proper way to remove hair is to devitalize it. It is impossible to accomplish this result with pastes and rub-on preparations, because they only remove hair from the surface of the skin. De Miracle, the original liquid depilatory, devitalizes hair by attacking it under the skin as well as on the skin.

Imitations of De Miracle are as worthess as pastes and rub-on preparations, because they lack certain ingredients that De Miracle alone contains, which give it the power to rob hair of its vitality—its life-sustaining force.
